WORK EXPERIENCE

| | | |
|--------------------|---|-------------------------|
| 2019 - 2020 | GroupG4 <i>Junior Architect</i> <ul style="list-style-type: none">Advised on multiple international luxury retail architecture projects for Fortune 500 companies. All design, construction, and client relations conducted to the highest standard of quality.Took charge of an expansion and renovation project in Bicester Village, England. Conducting conferences with the clients, providing preliminary designs, contacting general contractors, drafting the drawings, and developing a bill of quantities.Developed site and project drawings to a professional finish with AutoCAD and Revit for projects in Spain, England, Dubai, Italy, and the United States. Leading weekly progress reports to keep up with team members.Supervised several key site visits while undertaking site surveys for a store renovation. Consulted city officials and legislatures to find building regulations for the sites' protected façade. | Barcelona, Spain |
| 2018 | DAW Office <i>Architect Apprentice</i> <ul style="list-style-type: none">Drafted plans, sections, and elevations for a renovation project of Antoni Gaudí's first project in Barcelona, Casa Vicens. Worked meticulously to complete a detailed and carefully planned renovation project for a highly protected building.Designed, built, and photographed a 2m x 3.5m, 1:200 detailed scale model of a charity project to create the Thionck-Essyl High School in a remote village in Senegal. The model and photographs were displayed for company fundraisers and presented to key stakeholders.Designed several competition boards for local projects in Barcelona. Creating skate park designs with Photoshop, InDesign, and model making to fulfill submission requirements. | Barcelona, Spain |

GOALS

- Pursue further learning by working in a new environment & gaining more professional experience.
- Apply what I've learned in my studies, actively participating in the design stages, bringing a high standard of quality to my drawings and renders, and applying my knowledge of construction and structural matters to design projects.
- Continue practicing and learning more coding; front-end development and scripting programming languages are particularly interesting to me for their close relation to design & automation.

ADDITIONAL SKILLS

TECHNICAL SKILLS

AutoCAD – Expert Level along with regular use to a professional degree
Revit – High Level along with frequent use to a professional degree
Excel – Adept understanding and regular use to develop Bill of Quantity's and budgeting spreadsheets
Frequent and proficient use of *Photoshop*, *V-Ray*, *Bexel Manager*, *InDesign*, *Office 365*, *Adobe Acrobat*, *Rhino*, *Enscape*, and *Illustrator*.

PERSONAL SKILLS

- High attention to detail and quick learner
- Active team member and leader during collaborative efforts
- Multi-Lingual and from a multi-cultural background
- Patient and enthusiastic worker

LANGUAGES

English (Native), Spanish (Native), Catalan (Native), French (Intermediate)

EXTRA CURRICULAR ACTIVITIES

- Regular exercise schedule consisting of working out, team sports, long and short distance running, skiing, and mountain biking
- Engaging interest in reading about architecture and psychology, recently finishing Vitruvius's 10 Books of Architecture, The Philosophy of Design, and Tom Kundig's series on architectural photography
